Inowrocław Chemical Company "Soda-Matwy S.A." has been closely cooperating with State Research and Design Institute of Basic Chemistry (NIOCHIM), Kharkiv, Ukraine for more 10 years in the field of soda ash plant column equipment.

According to NIOCHIM engineering based on its scientific developments we manufactured and successfully operate at Soda Ash Division of Ciech Group carbonation columns, distiller, distillation heater, distillation gas condenser-cooler.

The introduction of those units permitted to increase the output of our products and simultaneously improved process characteristics at Inowrocław Chemical Factory "Soda-Matwy S.A.". We continue our cooperation with NIOCHIM which has very distinctive prospects for a long time.
